INTRODUCTION

- The 52 SUPER SERIES is globally recognised as the world's leading grand-prix monohull racing circuit.
- 52 SUPER SERIES brings together 400 people at every regatta.
- Started partnership with 11th Hour Racing in 2015 and introduced new initiatives to change the way that staff, sailors, marinas and yacht clubs interact with the environment.
- 2016: Aggressively targeted core elements of the event: the water supply, waste policies, food provision, fuel usage, materials and transport.
- 2017: ISO 20121 certification awarded and ongoing refinement of procedures

Our goal has been and still is, to become one of the most sustainable racing circuits in the world.

52 SUPER SERIES Management / Organisation

Influenced by 52 SUPER SERIES

Impact within 52 SUPER SERIES Organisation

THE THREE PILLARS OF SUSTAINABILITY

SOCIAL

- Always employing local race committee
- Local race office, where feasible
- Education of local children
- Beach clean-ups

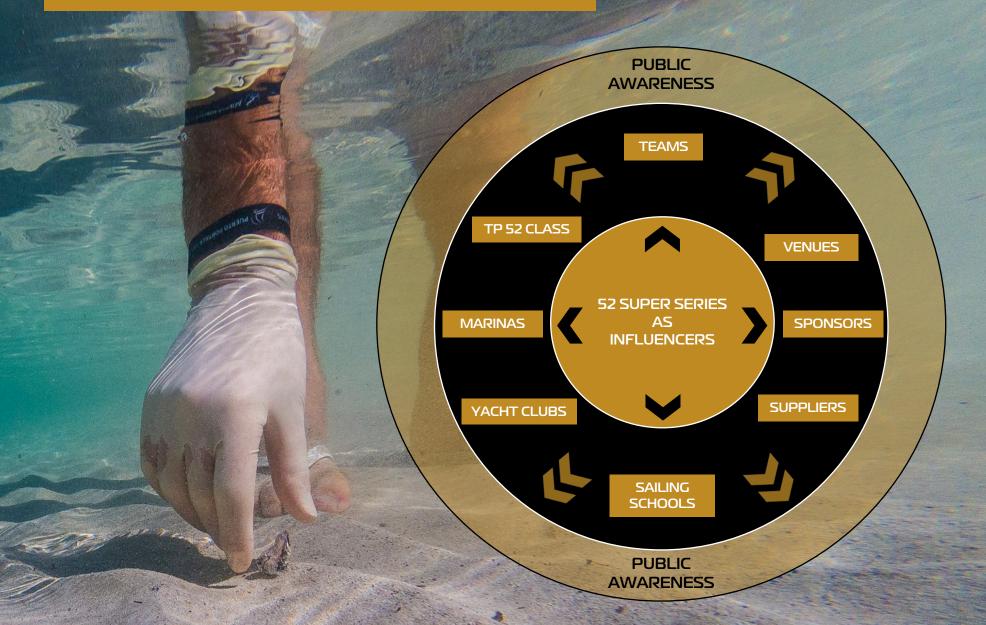

ECONOMICAL

- Local caterer
- Food sourced locally
- RIBs hired locally, if possible
- Local race committee
- Local race office
- Local event support, where feasible
- Shuttle service

ECOLOGICAL

- Recycling
- Removal of singleuse plastics
- Fuel reduction of support boats
- Reusable branding
- Alternative transportation/ group transportation
- Oil/Fuel Spill kits
- Eco-friendly cleaning products

STAKEHOLDER APPROACH

WATER FILTRATION SYSTEM	SHUTTLE SERVICES	ALUMINIUM BOTTLES	RECYCLING BINS	
FUEL REDUCTION	OIL SPILL KITS	REUSABLE BRANDING	ECO FRIENDLY PRODUCTS	
OUR INITIATIVES FROM THE BEGINNING				
BIKE RIDES	SINGLE-USE PLASTIC REMOVAL	SOURCING LOCAL SUPPLIERS	REGULAR BEACH CLEAN-UPS	
YOUTH EDUCATION	AMBASSADOR PROGRAMME	TEAM CHARTER	ONLINE AND OFFLINE PROMOTION	

HEADLINE RESULTS OVERALL

Over **60.000 single-use plastic bottles** (0.5 I) removed from circulation.

More than **350kg of rubbish** have been collected at local beaches.

3,900 shares on Facebook for a single post about decomposition rates. This reached 300k people.

More than **2.000 lunches** without an plastic packaging and utensils.

7 teams are now committed to using the water filtration system. This is 5 more than in 2015.

More than 300 local school children have been invited to discuss sustainability topics and help collect trash at our beach clean-ups.

12 Sustainability Ambassadors nominated from the 52 SUPER SERIES fleet.

UNE-ISO 20121 awarded in October 2017.

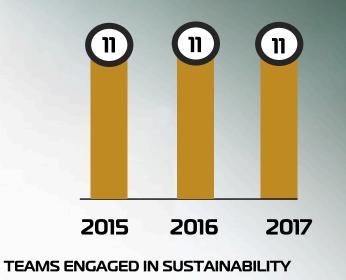

Team Charter has been drafted and signed by all competing teams.

A **complete transformation** of the Puerto Portals recycling policy, along with legislative support from the local council.

Only 1.000 pieces of paper have been used by the Race Office throughout 2016 and 2017 season also.

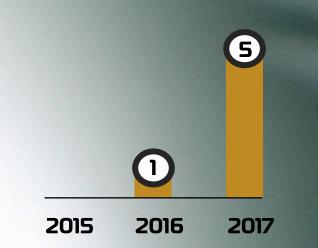

FACTS & FIGURES

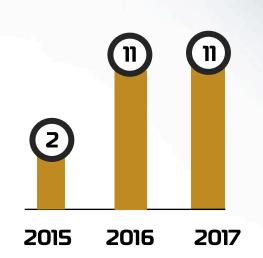

AVERAGE AMOUNT OF TEAMS/EVENT

TOTAL IMPRESSIONS ALL CHANNELS (LIVE TV, SOCIAL MEDIA, WEBSITE)

WATER

- Purchase of a MAGIC's CS150-HL reverse osmosis water filtration system (1.5 liters/min – 2.160 liters/day)
- Provided reusable water bottle for organisation's permanent staff
- 2 Teams committed to purchasing and using own water filtration system

- In 2017, single-use water bottles and plastic cups have been removed from 5 out of 6 host sailing lounges and replaced by water fountains and paper cups.
- Teams are encouraged to use the water filtration system. 7 out of 10 teams are using either their own water filtration system or the organizations' water filtration system.
- Provided reusable water bottles for every team member during Scarlino event

2015

2016

٠

٠

- Single-use water bottles have been eliminated from 52 SUPER SERIES operations.
- Single-use water bottles have been removed from 4 out of 5 host sailing lounges and replaced by water fountains and paper cups.
- Teams are encouraged to use the water filtration system.

TEAMS

Creation of a Sustainability Working Group composed by one ambassador from each team and 52 SUPER SERIES representative in order to work together towards the same sustainable objectives

Sustainability ambassadors use the regular meetings as a platform for open discussions and exchanging ideas to improve sustainable operations within teams

2017

AND REPRESENTATION	0411

12 Sustainability Ambassadors have been identified and meet at every regatta.

2016

Teams have been briefed on the new Team pledge and all teams have signed it.

WASTE

Recycling bins are available at all venues

 Waste reduction measures continue, reducing packaging waste with suppliers and general waste within the organisation

2015

2016

- Recycling policy at Puerto Portals has been transformed in partnership with the local council.
- Increased awareness on importance of recycling within the organization and teams.

BRANDING & SIGNAGE

- Changeover from plastic/PVC accreditations to fabric wristbands.
- Reusing branding, where possible and if not date-, partner- or location-specific.
- Implementation of magnetic reusable result board.

- Started using digital result board/Screen.
- Reusing branding, where possible and if not date-, partner- or locationspecific.
- Purchase of new race office container, less pvc branding needed

2017

2015

٠

PVC-free vinyl boat stickers were trialled for the 2016 season.

2016

٠

Reusing branding, where possible and if not date-, partner- or locationspecific.

MEDIA & COMMUNICATIONS

- 52 SUPER SERIES Website: specific sustainability area implemented, where we describe our message and mission
- Press releases about sustainability: 4, videos featuring sustainability: 7, number of sustainability articles in media: 5

2015

- 84 posts to social media have been made
- 2.4 million impressions across all media channels with high levels of engagement and interactivity.
- A full feature on sustainability was included in the Live TV broadcast at the World Championship in Mahón 2016. This was viewed by half a million people.
- Press articles sustainability published by Seahorse Magazine and NYT:

MEDIA & COMMUNICATIONS

- 2 live interviews about sustainability during live TV broadcasts in Key West and Miami.
- Sustainability part integrated in highlight videos at 4 out of 5 regattas as of yet.
- 13 clips in total about sustainability
- 75 posts to social media have been made so far.
- Live TV Views (Sustainability Features) 887.391.
- 4.6 million impressions across all media channels with high levels of engagement and interactivity.

INNOVATION

The Forefathers

FUEL

- Tracking of fuel consumption of event support boats
- Spill kits provided to all event support boats

- Reduced fuel consumption of the support boats constantly.
- Encouraging support boat drivers to drive more efficient, both organisation and teams
- Oil spill kits have been made available for all petrol stations and distributed to teams and all of the organisation's ribs.
- Avoided usage of diesel power generators, whenever possible

2015

2016

٠

- Promoted responsible and efficient driving for all race boats (umpires, race committee and media boats), and for all teams
- Reduce fuel consumption by 10% overall

FOOD

- Organisation lunches/picnic are provided in paper bag, without single-use plastic utensils.
- Hired only local caterers

- Removed plastic cups and utensils from 4 out of 6 host sailing lounges and replaced them by water fountains and paper cups.
- Organisation lunches are always provided in a paper bag, without single-use plastic utensils.
- Caterings are sourced locally.

2015

- Removed plastic cups and utensils from 4 out of 5 host sailing lounges and replaced them by water fountains and paper cups.
- Organisation lunches are always provided in a paper bag, without single-use plastic utensils.
- Caterings are sourced locally.

TRANSPORT

The 52 SUPER SERIES Cycling Experience: 25 team members participated in the 1st 52 SUPER SERIES RIDE FOR SUSTAINABILITY.

- In 2017, shuttles were only provided in 1 of 6 venues, because accommodation and host venues were in walking distance in 5 out of 6 venues
- Boats and containers are grouped, as much as possible, for transport
- Cycling is promoted an encouraged via regular group rides

2015

2016

- Staff shuttles were provided at 3 of 5 regattas in 2016
- Boats and containers are grouped, as much as possible, for transport
- Cycling is promoted an encouraged via regular group rides

LEGACY

50 kids from a Sailing School in Calanova participated in our "1st 52 SUPER SERIES SUSTAINABILITY TALK" which was run by Tom Burnham (Quantum) and our Sustainability Officer during the 52 World Championship in Puerto Portals.

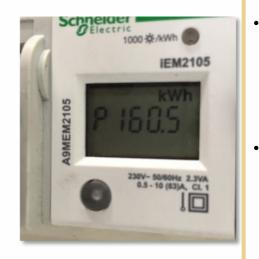

- Beach clean-ups have been organized at every regatta.
- Groups of local school children have been invited to learn about sustainability and afterwards collected trash at our beach clean-ups
- At South Beach, Miami, in 2017, we partnered up with Ocean Conservancy and collected 319lb/145kg of trash within 45 minutes at South Point Pier area.

2015

2016

- Beach clean-ups have been organized at every regatta.
- Groups of local school children have been invited to learn about sustainability and afterwards collected trash at our beach cleanups
- During Porto Cervo event, BMW electric cars were provided and used for transport.

- An electricity meter has been fitted to the race office in 2016 for consumption tracking, also the new container (in use since Scarlino 2017) is equipped with electricity meter.
- Electricity usage has been calculated by ClimateCare and offset by a donation to a renewable water charity.

.

UNE-ISO 20121 awarded at end of October 2017

ELECTRICITY

PRINTING

ISO CERTIFICATION

- We only use recycled paper and ink in official event communications
- We work in partnership with our host venues to reduce the amount of printing and encourage them to use sustainable materials at all times

ISO 20121 certification for 2017 season

AENOR

Certificado del Sistema de Gestión de Sostenibilidad de Eventos

SE-2017/0003

AENOR certifica que la organización

SUPER SERIES EVENTOS DESPORTIVOS, LDA

dispone de un Sistema de Gestión de Sostenibilidad de Eventos conforme con la Norma UNE-ISO 20121:2013

con domicilio social: RUA DA CARREIRA 115/117 SAN PEDRO FUNCHAL (Portugal)

para la actividad: Organización y gestión de eventos

y para el evento: Regatas del circuito "52 SUPER SERIES"

Fecha de primera emisión: 2017-09-14 Fecha de explración: 2020-09-14

Carbon Footprint Breakdown

Air Travel Cars Taxi Public Transport Road Freight Air Freight Sea Freight Fleet Vehicles Office Energy, Waste & Water

Independent assessor, ClimateCare, has calculated the total carbon footprint of all 52 SUPER SERIES event operations in 2016.

The CO² has been offset by a donation to renewable water charity, LifeStraw Carbon for Water in 2016. This project cuts carbon and provides safe water by

distributing 877,505 LifeStraw Family filters to households in Kenya's Western

Province. The gravity driven point-of-use water filters require no electricity or consumables.
